GERALD R. MILLER CITY MANAGER

August 1, 2003

HONORABLE MAYOR O'NEILL City of Long Beach, California

SUBJECT: PROPOSED FISCAL YEAR 2004 CAPITAL IMPROVEMENT PROGRAM

In accordance with the City Charter, I am pleased to submit for your consideration the Proposed Capital Improvement Program (CIP) for Fiscal Year 2004 (FY 04). This document supplements the FY 04 CIP Overview included in the Proposed FY 04 Budget document with additional detail about capital projects. The CIP budget identifies the City's capital investment plans as to both projects and funding sources.

The CIP document is a user-friendly tool for the City Council, the public, and staff, intended to enhance the understanding of planned projects and use of City resources.

- The CIP addresses two timeframes a one-year budget and a five-year work plan.
- Detailed information is provided for each project, including a map, scope of work, and contacts, as well as inception-to-date budget and actual financial data.
- The "Highlighted Projects" section summarizes projects with estimated construction costs over \$1 million.
- The "Transportation Enhancements" section includes projects and funding programs targeted at enhancing capacity (such as street widening and bike lanes) from street repair projects.

In keeping with the goals of the Three-Year Financial Strategic Plan, the FY 04 CIP budget reduces General Fund expenditures while preserving core service priorities such as structural maintenance at City facilities, ADA facility projects and the Sidewalk Improvement Plan. To relieve General Fund support to capital projects, prior budget allocations for ongoing projects were closely scrutinized to maximize savings. In addition, alternative funding sources for FY 04 are proposed where appropriate, and non-critical projects are deferred to future year work plans.

Community Development Block Grant monies will provide \$450,000 in alternative funding for the annual commitment to the Sidewalk Improvement Plan, which will keep the program whole, while allowing for a reduction in General Fund support.

HONORABLE MAYOR O'NEILL August 1, 2003 Page 2

Another long-standing commitment has been to fund implementation of the ADA Transition Plan for City Facilities, bus stops, and curb ramps. In FY 04, \$600,000 in Community Development Block Grant monies will fund the ADA Facility Upgrades and ADA Emergency Response programs.

Continued maintenance for aging City facilities and infrastructure is necessary to avoid costly emergency repairs and to prevent further deterioration. Recognizing the high priority of these maintenance needs, two new CIP programs are proposed for FY 04:

- A Critical Facility Repair program will be undertaken with approximately \$400,000 in funding generated from savings in similar CIP projects and continued General Fund support. Facility assessment studies are underway to define and prioritize citywide facility improvement needs. Developing a financing strategy for these critical needs will be a priority for staff in the coming year.
- An Alley Improvement program of \$500,000 will be initiated in FY 04 reflecting the community's priorities for increased investment in the city's streets and alleys, with \$250,000 in Gasoline Tax Street Improvement funds and \$250,000 in Community Development Block Grant funds.

Increased maintenance of the City's aging facilities and infrastructure will be a high priority in the coming years, along with developing financial policies and strategies to address these needs.

Staff and I look forward to working with the City Council to implement the projects contained in this document. Public Works is poised to provide effective and efficient service delivery.

Respectfully submitted,

macapounce

GERALD R. MILLER

CITY MANAGER

CAPITAL PROGRAM OVERVIEW

Capital Planning Process

The Capital Improvement Subcommittee (CIP Committee) of the management team's Economic Development and Infrastructure Standing Committee was responsible for developing the Fiscal Year 2004 (FY 04) Capital Improvement Program (CIP). The CIP Committee included senior managers from the Departments of Community Development, Financial Management, Fire, Parks, Recreation & Marine, Planning and Building, Police and Public Works who assumed the task of compiling the Program for final approval. The Committee worked together to carefully review the City's capital needs and to prioritize project submittals based on established criteria. In FY 03, another component – Guiding Principles – was added to the CIP evaluation criteria. The introduction of the Guiding Principles provided further support and direction toward refocusing the Program and extracting projects that represent operating activity.

Long Range Planning and Economic and Revenue Forecasting

In deference to the City's Three-Year Financial Strategic Plan adopted by the City Council on March 25, 2003, formal Long Range Plans were not submitted by departments during the FY 04 CIP process. However, the Future Years' Work Plan contained in this book has been updated based on estimates by the appropriate departments.

The Department of Financial Management provided the revenue projections necessary for the CIP Committee to determine the type and amount of resources available to finance proposed capital projects. Specifically, Financial Management monitors fiscal trends at both the local and state levels. Analyses of property sales and user tax revenues and State and Federal legislation contribute to their economic forecast.

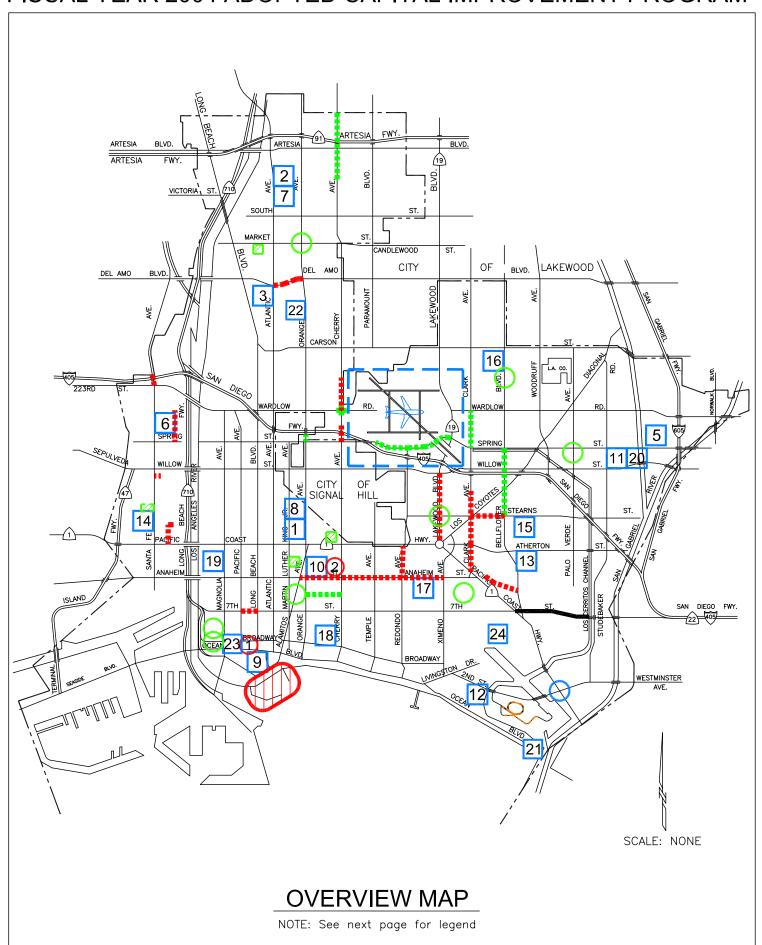

Operating Budget Impacts/Operating and Maintenance Costs

One of the many issues evaluated through the CIP process is the impact new projects may have on departmental operating budgets. These "hidden" costs can affect the ability to fully utilize the facility and provide quality services. By addressing these costs at the outset of the process and including necessary enhancements in the operating budget, other important services will not be compromised in future years.

<u>Information Document</u>

The CIP identifies the adopted budget for each project that will receive funding in FY 04, including the fund types, funding sources, and charts showing funding allocation percentages. The CIP also includes a historical perspective. The CIP's multi-years character is reflected in the historical summaries to show the fiscal activity for each project, from inception to FY 04. The new Highlighted Projects section spotlights awarded construction contracts valued at \$1,000,000 or greater. The Future Years' Work Plan section identifies anticipated developments within the city.

GUIDE TO THE CAPITAL IMPROVEMENT PROGRAM

I. Introduction

The Fiscal Year 2004 (FY 04) Capital Improvement Program (CIP) represents the City's short-range, strategic capital investment. The CIP identifies and provides for two types of expenditures. The first covers strategic improvements to the City's existing infrastructure and the second type involves one-time projects designed to address important community needs.

II. How this Document is Organized

The CIP layout includes two introductory pieces - the Capital Program Overview and the Guide to the CIP - followed by Financial Summaries and a new section, Highlighted Projects. This section was created to highlight the larger CIPs. Projects included in the section have been awarded construction contracts valued at \$1,000,000 or greater.

The majority of the book is composed of the thirteen major categories of capital improvement programs that are defined by the type of capital investment. The Public Works Department manages CIP projects in items 1 through 8 while the projects in items 9 through 12 are managed by the departments indicated in each item. The following is a summary of each category.

- Airport Long Beach Airport offers a variety of services required by commercial and general aviation users. The direct and indirect economic impacts of the Airport on the Long Beach region are important to the City. Funding for Airport CIPs can come from several sources including Federal Aviation Administration grants, Airport fees and facility charges, loans, and bonds. Improvements will be implemented as needed to accommodate 41 commercial airline flights and up to 25 commuter airline flights per day and over 3 million passengers annually. Passenger safety, compliance with federal mandates, and future operational needs of the Airport provide the basis for capital projects. Planned projects include airfield pavement rehabilitation activity, airport terminal area improvements, airport terminal area traffic improvements, and replacement and upgrade of the security access system.
- 2) Community Development In recent years, the primary focus of Community Development projects has been implementing the City's Transition Plan to comply with the Americans with Disabilities Act (ADA). The City continues to make significant progress in completing projects based on the priorities established in the Transition Plan. Facilities with completed, or soon to be completed, ADA upgrades include branch libraries, the Convention Center theatres and the Arena, various elevators, City Hall, park playgrounds, the El Dorado Senior Center, and park buildings. In keeping with this commitment, CIP projects totaling \$600,000 will be funded in FY 04. ADA work is also accomplished in other project categories as well as by various departments not included in the CIP.

- 3) Marinas, Beaches & Waterways Two assets that make Long Beach unique are its beaches and marinas. These City maintained resources provide recreational enjoyment to both residents and tourists. With the support of the Harbor Department, work continues on a major bluff erosion control project to prevent injury to persons, private property, and public parks and infrastructure due to storm induced slope failure. In FY 04, upgrades to Marina Restrooms will continue.
- 4) Parks & Recreation Parks located throughout the City provide the recreational amenities and open space to enhance the environment and provide leisure opportunities to meet the needs and interests of residents. There is a constant effort to address and balance the issues of aging facilities, demographics, and the uneven distribution of park facilities throughout the City. New projects to begin in FY 04 include a mini park at Plymouth and Elm and restroom rehabilitation. Work at the Caesar E. Chavez and Admiral Kidd Parks will continue with additional phases of construction.
- 5) Public Facilities Building and related facility improvements are often key to the City's ability to deliver quality services to residents. Notable projects in this category are the Emergency Communications and Operations Center/911 facility, transit and bus stop improvements, police substations, Health Department land development, and various capital improvements to the Civic Center Complex. The following programs initiated in FY 03 will continue in FY 04: facility assessments for Library Services, Parks, Recreation and Marine and the Health Department.
- 6) Storm Drains Storm water is removed from city streets through a network of drains that channels the water into the ocean through the City's harbors and bays. The Department of Public Works is responsible for the storm drain capital projects. The maintenance of the City's storm drains has been contracted to the Long Beach Water Department.
- 7) Street Rehabilitation Restoring our neighborhoods is a key element in the Long Beach Strategic Plan. The Street Rehabilitation category programs are designed to help meet that goal. The program delivers improvements including, but not limited to, reconstruction and resurfacing of major and secondary streets; replacement of street signs; application of slurry seal to residential streets; repair of neighborhood sidewalks, curbs, and gutters; removal and replacement of street trees; and rehabilitation of bridges to repair deficiencies identified by the Los Angeles County annual bridge inspection report.
- 8) Transportation Enhancements This category contains programs designed for the implementation of transportation improvements needed to meet increased needs for mobility resulting from economic growth utilizing a combination of funds. These funds include Proposition "A" and "C," Gas Tax Street Improvement Capital, General Capital Projects, Transportation Improvement Fees, and Federal grants. The transportation improvements include street and intersection widening, traffic signal system expansion and upgrades, roadway grade separations, transit improvements, parking restrictions and replacement parking, neighborhood traffic management, and bike lanes. This category also

includes programs that monitor and evaluate traffic congestion areas throughout the City and respond with projects to relieve congestion or enhance traffic safety.

9) <u>Harbor</u> - The Harbor Department (Port) continues its long-term capital improvement program of accomplishing the following: (1) to provide Port tenants with state-of-the-art facilities capable of accommodating expanding international trade and (2) to secure regional benefits. These goals constitute the driving force behind the Port's CIP.

The first phase of the Port's newest container handling facility opened during the last quarter of FY 02. This phase consists of a 288-acre terminal located in the former naval complex on Terminal Island (Pier T) and is equipped with 12 cranes capable of reaching across 22 containers. The second phase of this project will add 87 acres of land to the terminal and the first 42 acres will open during FY 03. The remaining acreage will open during FY 04, and the wharf will open in July 2004. The anticipated total cost for the Pier T terminal (including the cranes) is \$650 million and will be occupied by Hanjin Shipping of South Korea.

The Port continues to work on the expansion and development of container cargo facilities on Piers E, G, and J and continues to upgrade the coke and coal handling facilities on Pier G to comply with State environmental regulations established to protect the surrounding community from coal dust.

10) Long Beach Energy - Long Beach Energy (LBE) is the largest of the three municipally owned natural gas utilities in California and the sixth largest such utility in the country. One of the primary goals of Long Beach Energy is to supply its customers with a dependable source of natural gas at a reasonable price via a safe and reliable pipeline distribution system. The Department is also responsible for the City's fleet of variously fueled vehicles, towing operations and waste management, including refuse removal, recycling, street sweeping, and disposal of solid waste through a state-of-the-art waste-to-energy plant.

LBE natural gas pipeline is a City asset with a \$400 million replacement value. A primary objective of the Department is to maintain the highest standards of pipeline integrity. To improve the deliverability of gas to its customers, LBE has adopted the priority of establishing a single 40-pound pressure sector that will replace the existing 12 separate pressure sectors. LBE's plan to maintain system integrity and pressure up rating incorporates U. S. Department of Transportation procedures requiring step increases in pressure followed by leak surveys and necessary repairs. The process results in improved system reliability, more gas storage within the distribution system, and reduced potential flow constraints.

The Department is also committed to the preservation of its assets by continuing to maintain, rejuvenate, and enhance the usefulness of its facilities and other properties through various capital improvement projects.

11) Parks, Recreation and Marine – In FY03, the Parks, Recreation and Marine Department began administering some of its own CIP projects. These projects will continue in FY 04 with the construction of the Downtown Shoreline Marina Rebuild project, a new gymnasium at Broadway and Golden School and a new

mini park at Pacific Coast Highway and Junipero.

12) <u>Water</u> - Planned capital improvements to the City's water and sewer system encompass a wide range of projects. The Water Department will continue replacing cast iron mains, as some are approaching the end of their useful life, with more durable ductile iron pipes at an aggressive rate of 75,000 - 85,000 feet annually. In addition, the Department is continuing with its reclaimed water system expansion, conjunctive use projects, and ocean desalination research and development.

III. Using the CIP

The Financial Summaries section provides an overview of the entire CIP. The Summaries identify the adopted budget for each capital project including the fund number and funding source. In addition, a historical perspective is provided showing the budget and expenditure information for each capital project, from inception to FY 04.

With the exception of Harbor, Long Beach Energy, Parks, Recreation and Marine, and the Water Departments, each category section of the CIP described above contains the following:

- Table of Contents
- Category at a Glance an overview of the category from inception to FY 04
- Map location identification of the adopted FY 04 capital projects
- FY 04 adopted budget adopted budget amount for each capital project receiving funding in FY 04
- Historical summary page a complement to the FY 04 adopted budget pages summarizing the fiscal history from inception through FY 03.

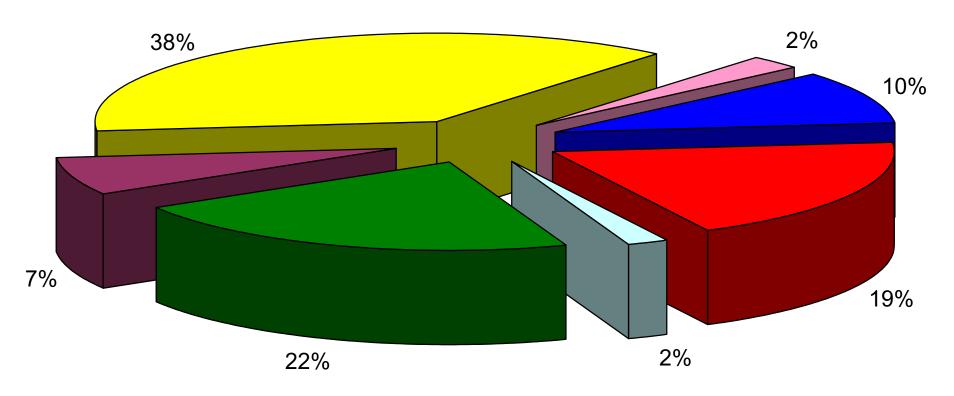

Each FY 04 adopted budget page designates:

- The program number and title
- The lead managing department and contact information
- A brief program description
- Scheduled work to be initiated in FY 04
- Estimated schedule for the FY 04 program
- Adopted FY 04 budget amount
- Funding Sources

The last sections in the book contain the Future Years' Work Plan (Work Plan) and alphabetical and numerical indices of all projects and glossary terms. The Work Plan distinguishes future funding needs from the one-year budget adoption.

The project amounts contained in this book reflect the final project amounts following the standard practice of project balance maintenance.

HIGHLIGHTED PROJECTS

This section has been created to highlight the larger capital improvement projects in the City's CIP program. To be included in this section, a project must have a minimum contract value of \$1,000,000.

For each project there is a project data sheet listing:

- project name and number
- contract title
- relationship to strategic plan
- contact information: project manager, department contact, construction manager, design architect or engineering firm, and contractor
- planned scope of work
- progress at September 2003
- key issues, if applicable
- project schedule
- project budget or estimated project cost and a corresponding chart

Following the informational page, the project locations are identified with a site location map for single site projects or a graphical representation for multiple site projects. See Glossary for acronym definitions.

An Airport Project:

Airfield Pavement Rehabilitation

Project PW1070-08

Contract Title

Construction of Runway Incursion Prevention Features, Improvements to Taxiway F Between Taxiways B and F1, and Improvements to Taxiway B Between Taxiways F and J

Strategic Plan

Business Growth and Workforce Development

Planned Scope

- Rehabilitate portions of Taxiways F and B
- Construct associated runway incursionprevention measures
- Relocate perimeter road
- Install taxiway edge lights, runway guard lights and associated appurtenances

Progress at September 2003

Construction 10% complete

An Airport Project: Runway Rehabilitation

Project Number PW1071-01

Contract Title

Construction of Improvements to Runway 12-30 and Connecting Taxiways and Runways, and Associated Improvements at the Long Beach Airport

Strategic Plan

Business Growth and Workforce Development

Planned Scope

- Rehabilitate Runway 12-30 and critical connecting taxiways which include Taxiway D north of Runway 7L-25R, Taxiway A west of Runway 12-30, and Taxiway L3
- Grade and stabilize adjacent safety areas to ensure compliance with FAA standards
- Construct blast pads at both ends of Runway 12-30
- Install Airfield Light Monitoring and Control Systems (ALMCS), centerline lighting and touchdown zone lighting

Progress at September 2003

- Design complete

Alex Ordonez

A Parks & Recreation Project: Recreation Building Replacement

Project Number PW3240-16

Contract Title

El Dorado Park Community Center Senior Center Wing Expansion

Strategic Plan

Neighborhood Development

Planned Scope

- Addition of approximately 3,600 sq. ft to existing building
- · Community center interior remodeling
- Additional parking construction
- Application of slurry seal to existing parking lot

Progress at September 2003

- Phase 1 Temporary Occupancy Permit (TOP) received; building addition including portion of existing building 100% complete; parking lot and sidewalk 100% complete; landscaping complete pending six months of landscaping maintenance
- Phase 2 Modify existing corridor, replace kitchen floor tiles, replace auditorium floor and ceiling tiles

Key Issues

Project is eight months behind schedule due to unforeseen building conditions encountered during construction. Job Order Contracting will be utilized to address cost concerns.

Project Schedule

Planning	10/20/99 - 2/19/00
Design	2/21/00 - 8/23/01

Note: On February 4, 2003, the City Council authorized the Redevelopment Agency to fund construction of the Long Beach Police North Station in an amount not to exceed \$12.4 million. A portion of the project's cost is covered by Traffic Mitigation funds.

A Public Facilities Project:

Police Substation Development

Project Number PW4330-02

Contract Title

Construction of the Long Beach Police North Station

Strategic Plan

Community Safety

Planned Scope

- Construction of a full-service Police Station (20,119 square feet) and a 1,386 square foot ancillary building at 4891 Atlantic Avenue, on the southwest corner of Del Amo Boulevard and Atlantic Avenue in Scherer Park
- Improvements to Scherer Park include landscaping, a covered picnic area, new signage, a new entry gateway, and 167 facility parking spaces
- New signalized intersection at Del Amo Boulevard and 49th Street, and a new right turn lane onto Atlantic Avenue

Progress at September 2003

Preparation for abatement of hazardous materials and interior construction.

PW1070 for Fiscal Year 2004

AIRFIELD PAVEMENT REHABILITATION

Department: Public Works-Engineering

Contact/Phone: Barbara Muñoz (562) 570-6386

Program Description

Rehabilitate, reconstruct, and extend runways, taxiways, taxilanes, and access roads. Install pavement markings, lighting, signage, and improve drainage systems. Construct improvements to the terminal apron area. Design and construct pavement improvements on the islands between the air carrier ramp and Taxiway C. Paving these islands will solve a foreign object debris problem and improve the safety of taxiing aircraft movement on the apron.

Scheduled Work to be Initiated in FY 04

Complete the construction of Taxiways F and B and the relocation of the perimeter road at the southeast end of Runway 12-30. Design improvements to termanal apron.

Estimated Schedule for FY 04 Program

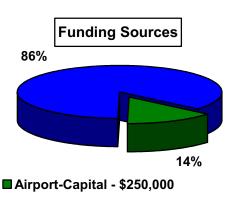

August 2003 – December 2003Complete construction of Taxiways F and B

PW1130 for Fiscal Year 2004

AIRPORT SECURITY ACCESS CONTROL

Department: Public Works-Engineering

Contact/Phone: Barbara Muñoz (562) 570-6386

Program Description

Improvements include, but are not limited to, reconfiguration of the Airport Security/Safety Office, complete replacement and upgrades of the security access control system, transportation security administration baggage and passenger screening improvements, and all other security improvements that may be required. In addition, replacement of the Airport's existing 1,500 gallon Aircraft Rescue Firefighting (ARFF) vehicle with a 3,000 gallon vehicle and replacement of the existing rapid response fire fighting vehicle with a new rapid response vehicle.

Scheduled Work to be Initiated in FY 04

Initiate the design of the security access control system upgrade. Purchase the 3,000 gallon ARFF and the rapid response vehicle.

Estimated Schedule for FY 04 Program

January 2004 – March 2004

Initiate design for the security access control system upgrade

August 2004 - September 2004

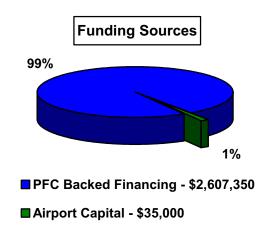

Purchase the vehicles

FY 04 Adopted

Department: Public Works-Engineering &

Public Works-Administration

Contact/Phone: Barbara Muñoz (562) 570-6386

Sandra Gonzalez (562) 570-5479

Program Description

Construct improvements listed in the ADA Transition plan to bring the City's buildings into compliance with the Americans with Disabilities Act

Scheduled Work to be Initiated in FY 04

Initiate and/or complete design:

- Parks Alamitos, Bixby Knolls, El Dorado East, Livingston, Marine Park/Mothers Beach, Scherer and Silverado
- City Hall Restrooms 8th, 9th, and 10th floors

Initiate and/or complete construction:

- Convention Center
- Libraries Alamitos, Bay Shore, Brewitt, El Dorado, Los Altos, Ruth Bach
- Health Facilities Central, North and West
- Parks Drake, Houghton (walkway), MacArthur, Marina Vista, Martin Luther King, Whaley
- City Hall (except restrooms and elevators)
- El Dorado Nature Center Bridges

Projects to be undertaken in Future Years' Work Plan:

- Parks Birdcage, Bouton Creek, Cherry, Chittick Field, College Estates, Colorado Lagoon, Coolidge, DeForest, Lily, Los Altos, Los Cerritos, Marine Stadium, Orizaba, Pan American, Ramona, Rose, Shoreline Aquatic, Somerset, Stearns/Champion, Wardlow and Veterans'
- City Buildings Airport Terminal and Parking areas, All Fire Stations, Alamitos Bay Marine Bureau, Public Service Bureau, Police Headquarters and North Facility, Marina Administration, Fire Training Center and Museum, Special Services, SE Resources Recovery, Search and Rescue and the Video Annex
- Marine Area Leeway Sailing Center, Claremont Beach Launch Ramp, Ocean Beachfront, Rainbow Lagoon, Channel View, Alamitos Bay Marina Basins

 Other Facilities – Public Restrooms, Bella Flora Fountain, Credit Union/Local #372, City Parking Lots, 14th Street Playground, Long Beach Cemetery and Sewer Pump S-12

Estimated Schedule for FY 04 Program

October 2003 - September 2004

Initiate and complete design for all specified projects

October 2003 - September 2004

Construct ADA improvements throughout the year

PARK ACQUISITION AND DEVELOPMENT

Department: Parks, Recreation and Marine Contact/Phone: Dennis Eschen (562) 570-3130

Program Description

- Redevelopment of Admiral Kidd Park
- Chittick Field redevelopment
- Development of a mini park at Plymouth and Elm
- California Recreation Center rehabilitation

Scheduled Work to be Initiated in FY 04

- Complete design of Admiral Kidd Park redevelopment
- Initiate design of Chittick Field redevelopment
- Complete design and intiate construction for minipark at Plymouth and Elm
- Initiate design of California Recreation Center rehabilitation

Estimated Schedule for FY 04 Program

October 2003 - August 2004

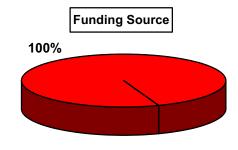

- Initiate and complete design at Admiral Kidd Park
- Initiate and complete design of Chittick Field redevelopment
- Complete design and initiate construction of minipark at Plymouth and Elm
- Initiate and complete design of California Recreation Center rehabilitation

PROPOSITION "A" TRANSIT RELATED IMPROVEMENTS

Department: Public Works-Engineering

Contact/Phone: Edward Aldridge (562) 570-6957

Don Grussing (562) 570-7454

Program Description

Construct transit related improvements in the vicinity of water taxi and bus stops. These improvements include, but are not limited to, concrete pads, ramps, and docks.

Scheduled Work to be Initiated in FY 04

- Complete bus stop improvements in conjunction with the Major and Secondary Highway Program projects
- Design and construct Aqualink docks and facilities at Alamitos Bay, Belmont Pier and Dock 9

Estimated Schedule for FY 04 Program

October 2003 - September 2004

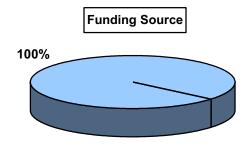

- Complete construction of all identified bus stop improvements
- Complete design and initiate construction of Aqualink docks and facilities at Alamitos Bay, Belmont Pier and Dock 9

FY 04 Adopted

MAJOR AND SECONDARY HIGHWAY PROGRAM

Department: Public Works-Engineering Contact/Phone: Edward Aldridge (562) 570-6957

Program Description

- Rehabilitate, reconstruct and resurface City streets to extend their useful life
- Provide incidental curb, gutter, and sidewalk improvements
- Implement minor traffic signal modifications
- Replace pavement markings
- Construct access ramps, bus bays, and bus stop pads
- Determine priorities using the Department of Public Works' Pavement Management System

Scheduled Work to be Initiated in FY 04

Anticipate completion of design for the following projects:

- Bellflower Boulevard between Stearns Street and Spring Street
- Cherry Avenue between Harding Street and the North City limits
- Cherry Avenue and Wardlow Road intersection
- Clark Avenue between Spring Street and Wardlow Road
- Orange Avenue between Spring Street and the San Diego Freeway
- Spring Street between Redondo Avenue and Lakewood Boulevard
- Spring Street between Temple Avenue and Redondo Avenue
- 10th Street between Orange Avenue and Cherry Avenue

Anticipate initiating Construction for the following projects:

- Anaheim Street between Alamitos Avenue and Ximeno Avenue
- Anaheim Street between Los Altos Plaza and Bellflower Boulevard
- Cherry Avenue from Spring Street to 32nd Street and Wardlow Road to Bixby Road
- Clark Avenue between Atherton Street and Eagle Street

*Note: The funds for FY 04 are for the continued delivery of the program described above. Please note that funds may be expended for work that was started, but not completed, in prior fiscal years. Therefore, amounts listed do not necessarily reflect the funds budgeted for work to be initiated in FY04.

- Clark Avenue between Pacific Coast Highway and Atherton Street
- Del Amo Boulevard between Atlantic Avenue and Orange Avenue
- Easy Street between Spring Street and 34th Street
- Harbor Avenue between Pacific Coast Highway and 20th Street
- Lakewood Boulevard from Outer Traffic Circle to Willow Street
- Redondo Avenue between Anaheim Street and Pacific Coast Highway
- Santa Fe Avenue between Wardlow Road and Warnock Way
- Stearns Street between Clark Avenue to Bellflower Boulevard
- 7th Street between Pacific Avenue and Long Beach Boulevard
- 20th Street between Harbor Avenue and Easy Street
- 25th Street between Santa Fe Avenue and Adriatic Avenue

Estimated Schedule for FY 04 Program

October 2003 - September 2004

Design and construction will occur throughout the fiscal year.

PROPOSITION "C" OPERATING EXPENSES

Department: Public Works-Traffic & Transportation Contact/Phone: Sumire Gant (562) 570-6618

Program Description

Provide staff support for administration of Proposition C Funds received by the City. Support includes annual reporting and budgeting of Proposition C funds and planning for and administering construction projects funded by Proposition C.

Scheduled Work to be Initiated in FY 04

- Submit Annual Local Return Reports to the MTA
- Submit applications for transit funding to the MTA
- Submit requests to the MTA for approval of Propositions A and C expenditures
- Maintain ongoing programs such as maintenance of the collision database system and signal synchronization operations

Estimated Schedule for FY 04 Program

October 2003 - September 2004

Ongoing submission of requests to MTA for approval of Propositions A and C expenditures

March 2004

Submit transit funding applications to MTA

August 2004

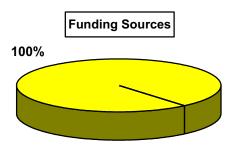

Submit Annual Local Return Report to the MTA

PWT170 for Fiscal Year 2004

TRAFFIC MITIGATION PROGRAM

Department: Public Works-Traffic & Transportation Contact/Phone: David Roseman (562) 570-6665

Program Description

Relieve arterial congestion, accommodate planned growth and implement specific improvements, including street widening, left turn pockets, parking prohibition, offstreet replacement parking and traffic signal synchronization

Scheduled Work to be Initiated in FY 04

- Work with Community Development to acquire property at 2nd Street and Pacific Coast Highway
- Initiate design for changes to intersection of 2nd
 Street and Pacific Coast Highway to increase traffic capacity

Estimated Schedule for FY 04 Program

October 2003 - March 2004

Complete acquisition of property at 2nd Street and Pacific Coast Highway

October 2003 - September 2004

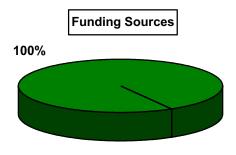

Complete design of intersection of 2nd Street and Pacific Coast Highway

FY 04 Adopted

Planning/Pre-Design	\$0
Design	\$250,000
Acquisition/Equipment	\$750,000
Construction	\$0
Construction Support	\$0
Contingency	\$0
*TOTAL	\$1,000,000

Funding Source

Traffic Mitigation Program \$1,000,000 TOTAL \$1,000,000

■ Traffic Mitigation Program - \$1,000,000

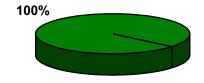

*Note: The funds for FY 04 are for the continued delivery of the program described above. Please note that funds may be expended for work that was started, but not completed, in prior fiscal years. Therefore, amounts listed do not necessarily reflect the funds budgeted for work to be initiated in FY 04.

TRAFFIC SIGNALS – NEW INSTALLATION AND ENHANCEMENTS

Department: Public Works-Traffic & Transportation Contact/Phone: Mark Cretekos (562) 570-6213

Program Description

Design new traffic signal equipment, perform major modifications, enhance safety and efficiency of the existing signalized system, including provisions for pedestrian heads, upgrading of non-standard treatments at intersections with parallel service roads, and the conversion of pre-timed traffic signals to semi-actuated signals

Scheduled Work to be Initiated in FY 04

- Initiate design and complete construction of eight new traffic signals
- Initiate design and complete construction of ten traffic signal modifications

Estimated Schedule for FY 04 Program

October 2003 - March 2004

- Initiate design and complete construction of eight new traffic signals
- Initiate design and complete construction of ten traffic signal modifications

MAJOR CORRIDOR ENHANCEMENT PROGRAM

Department: Public Works-Traffic & Transportation Contact/Phone: Sumire Gant (562) 570-6618

Program Description

Enhance major corridors throughout the City. Enhancements may include, but are not limited to, preparation of design studies, construction of sidewalk and median landscaping, replacement of concrete walls with iron fencing and signage. Priority projects are 7th Street, Willow Street, Long Beach Boulevard and Bellflower Boulevard.

Scheduled Work to be Initiated in FY 04

Complete landscaping design and initiate construction on priority projects

Estimated Schedule for FY 04 Program

October 2003 – December 2003 Complete landscaping design

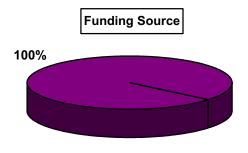

April 2004 – September 2004 Initiate construction of landscape improvements

FY 04 Adopted

I-710 FWY MAJOR CORRIDOR IMPROVEMENTS

Department: Public Works-Traffic & Transportation Contact/Phone: Mark Cretekos (562) 570-6213

Program Description

Develop policy and strategy coordination with respect to regional transportation programs and funding for the City with respect to the I-710 Freeway.

Work with other entities, such as Caltrans, MTA, SCAG, and Gateway Cities COG to stay updated on legislative and funding issues of concern to the City, and ensure that the City is represented in policymaking and funding processes.

Scheduled Work to be Initiated in FY 04

Continue efforts to see that the City has adequate input and representation in development of regional transportation programs, especially the I-710 Freeway project

Estimated Schedule for FY 04 Program

October 2003 - September 2004

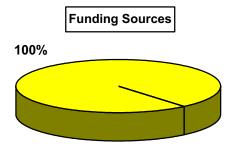

Continue review and provide input into various alternative plans for the I-710 Freeway

GLOSSARY

AB2928: The State Assembly Bill which established legislation for the Traffic Congestion Relief Fund in the State Treasury for allocation of street and road funds to cities and counties for maintenance and reconstruction.

Americans with Disabilities Act of 1990 (ADA): A Federal law enacted to provide for the protection of individuals with disabilities. This protection ranges from prohibitions against discrimination in employment to specific requirements for modifications of public facilities and transportation systems.

Airport Area Assessment District: The assessment district formed for the purpose of constructing upgrades in the airport area to improve traffic flow. The upgrades include street widening, grade separation, dedicated turn lanes, traffic signals, and signage. See Assessment District.

Airport Capital: A subfund of the Airport Fund. The non-grant portion of the Airport Fund capital expenditures. See Airport Fund.

Airport COPS: Certificates of Participation issued by the Long Beach Airport to fund future capital improvements. See Certificates of Participation.

Airport Fund: The fund designation used to account for revenues and expenditures applicable to the operation and maintenance of the Long Beach Airport and its leaseholds. The major revenue sources consist of revenues related to airport operations and grants. The Airport Fund is an Enterprise Fund. See Enterprise Fund.

Appropriation: An authorization by the City Council that permits officials to incur obligations and expend City resources.

Assessment District: A separate local government entity formed to provide specific local public services. Assessment districts can be established to provide a single service such as sewage treatment or to provide multiple services such as police and fire protection, parks and recreation facilities, and water distribution systems. Property owners within the assessment district's boundary pay into the district in direct proportion to the benefits or services they receive.

Bond: A method of financing long-term debt, issued by a government or private corporation, which bears interest.

Budget: A plan of anticipated expenditures and revenue for a certain period.

California Energy Commission: California's primary energy policy and planning agency.

Caltrans: The State of California Department of Transportation. Caltrans administers both U.S. Department of Transportation grants and its own grants for improvements to streets and highways.

Caltrans Construction Cooperative Grant: A grant issued by Caltrans for the City of Long Beach to provide various services in connection with the State's Interstate 710 construction project.

Capital: Assets that add to the long-term net worth of the City.

Capital Improvement: Construction or major repair of City-owned buildings and infrastructure which helps meet health, safety, and legal concerns and mandates, prolongs the life of City assets or avoids or minimizes future repair costs, benefits the community and supports goals articulated in the City of Long Beach Strategic Plan, has potential to generate operating savings or increase productivity, and is consistent with the City's General Plan.

CEC Grant: A grant received from the California Energy Commission.

Certificates of Participation (COPS): Interest-bearing debt instruments sold to investors by a non-profit agency to finance construction. The agency then leases the facility and uses the revenues to repay the debt.

CFD No. 5 Bond: See Community Facilities District (CFD) No. 5 Bond.

CFO: Chief Financial Officer.

CIP Category: A group of similar programs organized into a major section of the CIP budget document.

Civic Center 1997A Bond: A bond issued in 1997 by the Long Beach Finance Authority to fund various capital improvement projects in the Civic Center Complex.

Civic Center Capital: A subfund of the Civic Center Fund. The non-bond portion of the Civic Center Fund capital expenditures. See Civic Center Fund.

Civic Center Fund: The fund designation used to account for revenues and expenditures applicable to the operation and maintenance of the City Hall Complex and the Main Library Complex. The major ongoing revenue source to the Fund is rental payments from the departments occupying the facilities.

Coastal Conservancy Grant: State bond proceeds used to provide grant funds for pre-approved projects that improve public access to the coast and bay shores. Established in 1976, the California Coastal Conservancy is funded largely by State bonds.

Community Development Block Grant (CDBG): Federal entitlement funds (based on various criteria) received by the City of Long Beach from the U.S. Department of Housing and Urban Development (HUD) for the purpose of benefiting low and moderate-income areas and disabled residents.

Community Facilities District (CFD) No. 5 Bond: The 2000 bond issue for the finance of the acquisition and construction of certain street and other public improvements for the Long Beach Towne Center. The 2000 Special Tax Bonds.

Construction Support: Engineering work during the construction process, which ensures that projects are constructed in accordance with design parameters and specifications. Primary construction engineering functions include construction inspection, laboratory services, field surveys, and design plan updates or interpretation.

COPS: See Certificates of Participation.

DBAW: State of California Department of Boating and Waterways. See below.

Debt Service: The principal and interest payment on borrowed money according to a predetermined schedule.

Department of Boating and Waterways (DBAW): A State agency that provides grants and loans for improvements in the Tidelands areas of the City.

Design: The process of identifying project options, developing a project scope, conducting feasibility analyses, and creating plans, specifications, and estimates for a capital improvement. Primary design engineering functions include drafting, design, development of specifications, and traffic engineering.

Economic Development Administration (EDA): Created by Congress pursuant to the Public Works and Economic Development Act of 1965 to generate new jobs, retain existing jobs, and stimulate industrial and commercial growth in economically distressed areas of the United States.

Edison Grant: A grant received from Edison International under the LED Traffic Signal Rebate Program to provide for traffic signals which are more energy efficient.

Enterprise Fund: The fund designation used to account for City operations that are financed and operated in a manner similar to private business enterprises. The intent of the City in using this type of fund is to determine that the costs (expenses, including depreciation) of providing these services to the general public on a continuing basis are financed or recovered primarily through user charges. The City's Enterprise Funds include Airport, Gas, Sewer, Solid Waste Management, Towing, and Water.

EEMP (Environmental Enhancement and Mitigation Program) Grant: Annually, the EEMP offers in grants for projects to mitigate the environmental impacts caused by new or modified state transportation facilities. These grants are offered to local, state, and federal governmental agencies. The EEMP was established in 1989.

El Dorado Regional Park Development Grant: A National Park Service federal grant administered by the State Department of Parks and Recreation to upgrade the El Dorado Park campsites.

EPA (Environmental Protection Agency) Grant: Federal funds used to address environmental issues for pre-approved projects.

Estimated Actuals: Anticipated expenditures.

FAA: Federal Aviation Administration. This agency provides Airport Improvement Program (AIP) grants to construct airport capital improvements for pre-approved projects at the Long Beach Airport.

FAA AIP Program Grant: An Airport Improvement Program (AIP) grant from the FAA to construction airport capital improvements.

FEMA: Federal Emergency Management Agency. Provides funds, services, hiring, and post-disaster assistance for response and recovery in the event of natural disasters.

FEMA HMGP: Federal Emergency Management Agency, Hazard Mitigation Grant Program. The Governor's Office of Emergency Services (OES) administers this Program in California.

Fiscal Year (FY): A designated time frame which identifies the beginning and ending dates for recording an entity's financial transactions. The fiscal year for the City of Long Beach is from October 1 through September 30.

Fleet Capital: A subfund of the Fleet Fund. The non-grant and non-bond portion of the Fleet Fund capital expenditures. See Fleet Fund.

Fleet Fund: The fund designation used to account for revenues and expenditures applicable to the City's operation, maintenance, and timely replacement of the City's fleet of vehicles and equipment. There are two major sources of ongoing revenue for the Fund, Fleet Services charges to the City departments and land rental payments.

Fund: An accounting entity with a self-balancing set of accounts recording financial resources and transactions for specific activities.

Fund Type: A classification term used to group funding sources into specific categories of government functions or services.

Funding Source: The specific source of appropriated funds.

Future Years' Work Plan: Identifies planned expenditures by project and funding source for the five years following the proposed fiscal year's budget.

FY 03 Actuals: Expenditures in Fiscal Year 2003 (FY 03).

FY 03 Carryover: Unspent funds carried over from prior fiscal years that is part of the FY 04 appropriation.

FY 04 New Budget: The new allocation of monies that is part of the FY 04 budget appropriation.

Gas Capital: A subfund of the Gas Fund. The non-grant portion of the Gas Fund capital expenditures. See Gas Fund.

Gas Fund: The fund designation used to account for revenues and expenditures applicable to activities associated with the transmission and distribution of natural gas to the City's users. The Gas Fund is an Enterprise Fund. See Enterprise Fund.

Gasoline Tax Street Improvement Capital: A subfund of the Gasoline Tax Street Improvement Fund. The non-grant portion of the Gasoline Tax Street Improvement Fund.

Gasoline Tax Street Improvement Fund: The fund designation used to account for revenues and expenditures of gasoline tax funds apportioned under the State Streets and Highways Code, as well as other sources dedicated to transportation improvements. Expenditures may be made for any street-related purpose on the City's system of streets, including maintenance. In addition, to the gasoline tax revenue from the State of California, other transportation-related revenue sources include funding from the Federal Transportation Equity Act for the Twenty-First Century (TEA-21) and the State Traffic Congestions Relief Fund (AB2928).

General Capital Projects Fund: The fund designation used to account for the all-years Capital Improvement Program with multiple funding sources, including the General Fund, that pays for the City's general projects.

General Fund: The fund designation used to account for financial resources applicable to the general governmental operations of the City of Long Beach. The largest sources of revenue for the General Fund are property taxes, sales and use taxes, utility users taxes, and motor vehicle license fees.

Grants: Disbursement of assets from another government agency or entity to be expended for a pre-approved purpose, activity, or facility.

HBRR: Highway Bridge Rehabilitation and Replacement Program. See TEA-21 HBRR.

Health Fund: The fund designation used to account for revenues and expenditures applicable to the support of the operations of the Department of Health and Human Services.

HVAC: Heating, ventilation, and air conditioning.

Inception Through FY 02 Actuals: The aggregate expenditures from the initial expense through Fiscal Year 2002.

Inception to FY 03 Budget: The aggregate budgeted appropriations from the initial appropriation to Fiscal Year 2003.

Internal Service Fund: The fund designation used to account for the finance of goods and services provided by one City department to another on a cost-reimbursement basis, e.g., computer services, fleet services, etc., including depreciation.

ISTEA: Intermodal Surface Transportation Efficiency Act (of 1991). Superseded by Transportation Equity Act for the Twenty-First Century (TEA-21).

LED: Light Emitting Diode. A component of an electronic display.

Long Beach and Los Angeles Harbor Contributions: Monies received from the Long Beach and Los Angeles Harbors to fund various street improvements to improve the traffic flow out of the Long Beach and Los Angeles areas.

Los Angeles County Grant: Grants issued by the County of Los Angeles to the City of Long Beach to fund various capital improvement projects.

Marina Capital: A subfund of the Marina Fund. The non-grant and non-loan portion of the Marina Fund capital expenditures. See Marina Fund.

Marina Fund: The fund designation used to account for the revenues and expenditures applicable to the operation, maintenance, and development of the City's marinas in the Tidelands area.

MTA Grant: State and Federal funding awarded to the City of Long Beach through the Metropolitan Transportation Authority (MTA) "Call for Projects".

Nonpoint Source Pollution (NPS): Water pollution which originates from many different sources rather than one specific, identifiable source. NPS occurs when rainfall, irrigation waters, and water habits (washing cars/pets) create a flow over land and impervious surfaces and are deposited into the receiving waters via the storm drain system.

Park Impact Fees: Fees collected from new residential developments used to mitigate impact on Parks, Recreation and Marine facilities.

Project: A specific undertaking for the delivery of a capital improvement including procurement, construction or installation of facilities or related equipment.

Proposition "A": A source of funding from the Los Angeles County sales tax of one-half cent used exclusively to construct, improve, and maintain mass transit services and facilities. See Transportation Fund.

Proposition "C": A source of funding from the Los Angeles County sales tax of one-half cent used to construct, improve, and maintain mass transit services and facilities. This funding also provides an expanded list of eligible project expenditures including: congestion management programs, bikeways and bike lanes, street improvements supporting public transit service, and pavement management system projects. See Transportation Fund.

Proposition "C" MTA Grant: See MTA Grant.

Public Safety Facilities Capital Improvements Lease Revenue Bond: The 2002 bond issued by the Long Beach Finance Authority to finance public safety facility capital improvement projects.

Rainbow Harbor Area Fund: The fund designation used to account for revenues and expenditures applicable to the operation, maintenance, and development of the City's Rainbow Harbor area.

Rainbow Harbor Capital: A subfund of the Rainbow Harbor Area Fund. The non-grant and non-loan portion of the Rainbow Harbor Area Fund capital expenditures. See Rainbow Harbor Area Fund.

Redevelopment Agency (RDA): An agency governed by a seven-member board whose members are appointed by the Mayor and confirmed by the City Council. The Agency has the responsibility for oversight of tax increment funding received by the City (the amount of property taxes received in a specific geographic area that is in excess of the established base year amount). The funds are used to fund public and private development projects that target the removal of slums and blight within the project area.

Sewer Capital: A subfund of the Sewer Fund. The non-grant portion of the Sewer Fund capital expenditures. See Sewer Fund.

SCAQMD: See South Coast Air Quality Management District.

Sewer Fund: The fund designation used to account for revenues and expenditures applicable to the operation, maintenance, and replacement of the City's sewer system in a cost effective manner. The major sources of revenue include a water usage charge based on water which will enter the sewer system and a service charge based on the size of the customer's water meter. The Sewer Fund is an Enterprise Fund.

South Coast Air Quality Management District (SCAQMD): Agency responsible for preparation of the state implementation plan (SIP) applicable within its boundaries, adoption of control regulations for stationary sources, and implementation of indirect source and transportation control measures. For example, employee ridesharing rules.

State Bond Act of 1988: The 1988 bond issued by the State of California to fund various parks and recreation projects.

State Implementation Plan (SIP): The 1970 Clean Air Act requires each state to develop a state implementation plan to attain National Ambient Air Quality Standards (NAAQS) by the applicable attainment deadlines. SIPs must be approved by the Federal Environmental Protection Agency.

State Library Bond: California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2000 (Proposition 14). The bond proceeds are designated for site acquisition, new building construction, remodeling, renovation, and upgrading electrical and telecommunications systems.

State Proposition 12 Bond: Funding derived from the Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Act of 2000.

State Water Bond 2000: Funding derived from the Safe Drinking Water, Clean Water, Watershed Protection, and Flood Protection Act of 2000. The funds are administered by the State Water Resources Control Board for nonpoint source pollution control, watershed management plan development and implementation, wastewater recycling, and the protection of various targeted watersheds.

TDA-SB821: Transportation Development Act funding from sales tax receipts as specified in the California Streets and Highways Code. The TDA SB-821 is the Senate Bill which established legislation for the Transportation Development Act.

Transportation Equity Act for the Twenty-First Century (TEA-21): Enacted June 9, 1998, this federal legislation authorizes the Federal surface transportation programs for highways, highway safety, and transit. TEA-21 provides states with the flexibility to set their own transportation priorities and to explore creative financing mechanisms within certain guidelines. TEA-21 supercedes the 1991 ISTEA program.

TEA-21 HBRR: Highway Bridge Replacement and Rehabilitation funds used specifically for bridges within the city limits. See TEA-21.

TEA-21 MTA Grant: See MTA Grant.

Temple/Willow Bond: Bonds issued by the City to fund the construction of the new Fleet and Towing facility located on the corner of Temple Avenue and Willow Street.

Tidelands Operations Capital: A subfund of the Tidelands Operations Fund. The non-grant and loan portion of the Tidelands Operations Fund capital expenditures. See Tidelands Operations Fund.

Tidelands Operations Fund: The fund designation used to account for revenues and expenditures applicable to the operations, maintenance, and development of the convention center, and beaches, in the Tidelands area.

Traffic Mitigation Program: The goal of the Program is to relieve arterial congestion, accommodate planned growth, and implement specific programs including street widening, left turn pockets, parking prohibition, off-street replacement parking, and traffic signal synchronization.

Traffic Mitigation Program Monies: Monies received by the City from the payment of Transportation Improvement Fees. See Transportation Improvement Fees. The Traffic Mitigation Program monies are appropriated in the Capital Projects Fund.

Transportation Fund: The fund designation used to account for revenues and expenditures applicable to the City's share of an additional one percent sales tax which was approved by the electorate and is collected by the County of Los Angeles to finance certain transportation projects (Propositions "A" and "C").

Transportation Improvement Fees: Fees collected from land developers to mitigate cumulative traffic impacts. Sometimes referred to as Transportation Development Fees. See Traffic Mitigation Program.

TSM-State Grant: Traffic System Management funds administered by the California Department of Transportation (Caltrans) for traffic-related improvements. Receipt of the grant funds is contingent upon Caltrans' approval of the proposed projects.

West Long Beach Business Park Assessment District: The assessment district established to fund various street improvements in the West Long Beach area. See Assessment District.

Water Fund: The fund designation used to account for revenues and expenditures used to meet the water needs of the citizens of Long Beach with a dependable supply of high-quality water at a reasonable cost. The major sources of revenue include a volumetric charge for water used by customers and a service charge based on the size of the customer's water meter. The Water Fund is an Enterprise Fund. See Enterprise Fund.

CITY OF LONG BEACH Department of Public Works 333 West Ocean Boulevard, 9th Floor Long Beach, California 90802 (562) 570-6383 www.longbeach.gov
